

Eco Committee News Oct' 08

Welcome!!

This year we've made some exciting changes to the structure of our Eco Committee. This year's Eco Committee has been split up into key areas, so that each year group can devote more time and attention to needy Eco-School topics.

We are very grateful to our new teams who are already showing much enthusiasm towards their new roles.

In Year Two our children will be looking at the topic of School Grounds and Living Things.

Our team members are: Isla, Ewen, James, Olivia, Joel and Nancy.

In Year Three our children will be investigating Healthy Living matters in our school.

Our team members are: Dylan, Daisy, Sarah and Connor.

In Year Four our children will be trying to increase an awareness of Recycling and reducing litter and waste.

Our team members are: James, Callum and Lauren.

In Year Five our children will be looking into Transport and how we can all make a difference both at home and at school.

Our team members are: Jack, Alice, Aleesha and Rory

And, finally,

Year Six will be looking at Energy & Water. We will be looking into the importance of trying to save both, at home and in school.

Our team members are: Eleanor, Ethan, Freya and Alex.

Cont'd.....

This month our Eco Committee came together for their first community based project.

"Bulb planting at Duke Street Park".

We are once again looking forward to seeing all the daffodils in full bloom in the spring. (Please do go along and enjoy them!)

Well done to all of the children for their hard work (digging proved to be harder than we thought) and, especially, to all of our kind parents who gave up their time to help with the project!!

Thank you!!
