

# June '08 *Eco Committee News*

**Well what a busy time we had for our Walk to School Week in May! On behalf of the Eco Committee we would like to say a huge 'WELL DONE' to everybody for taking part in our numerous activities!**

**Monday** – We asked all the children to record on our Squirrel Eco Board any noises/sounds that they liked or disliked on their way to school. What a good response we had!

It was also the day that two of our Eco Committee members, Matthew & Charlotte, went to do a broadcast at Dune FM to highlight the value of walking to school. Well done they were fantastic and did the school proud!

**Tuesday** – Our Unicef Shoe Appeal – We started to ask all parents and their children to bring in as many unwanted pairs of shoes as possible so that these could then be donated to Clarks for their Unicef Shoebiz Appeal.

**Wednesday** – On this day all the children were allowed to wear any type of shoes they wanted. You certainly knew how to put your best foot forward!!

**Thursday** – We celebrated the launch of our 'Walk to School Passports' by having a prize passport draw. The prizes were two free family passes to Splash World (Many thanks goes to 'Splash World' for kindly donating these tickets!)

**Friday** – The climax to our week was for all our Eco Committee members to help display the charity name Unicef, on the school playground, using all of the shoes that had been kindly donated by everyone throughout the week. Thank you to Mr Williams for risking life and limb to take some aerial photographs for the schools newsletter. (Unfortunately these are not Mr Williams' photographs). Can you spot Mr Williams?

280 pairs of shoes were collected! The shoes will be recycled in the U.K and the money raised through the Shoebiz appeal will enable Unicef to provide safe learning resources and environments for children across the world. What a good job! Many thanks go to Clarks in Southport for taking such a large collection from us!
