Eco Committee News

Our 'Green'-Greenhouse!

Yes we can finally see how our greenhouse is going to look; Mr Robinson has been working really hard with our Year Fours and is so close to completing the greenhouse. We, however, still need more 2 litre clear plastic bottles. A letter will be going out shortly to highlight our need for your help. Watch out for the 'Wash it but don't Squash it letter! Much appreciation goes to **'Woodward's'** in the village for storing and donating their used plastic bottles for our greenhouse!!

Many thanks for your support!!

Courtyard Gardening with our Eco Members

As mentioned previously the Eco Committee did a grand job of planting and germinating flower seeds for our courtyard. Once the seedlings grew too big for their pots we planted them in tubs (donated from the free-cycle site, thank you!) and some in the borders. No doubt they will flower beautifully in the following months! It is hoped they will attract butterflies and many other wonderful insects into our courtyard.

Many thanks go to all the children at Woodlands Primary for being so keen to help in our Eco Quests throughout the year! Here's to another successful year in September! Have a safe and enjoyable holiday! We also hope the Year Sixes will endeavour to keep up their excellent work in their new schools. Good luck!!!
